

STANDING **TALL** IN THE FACE OF EVERYDAY **GIANTS**

BRAVE

GAME- **STICKS**

Learning point:

However, in control we feel, there's always times where the unexpected happens and throws us totally off our game. We need to learn how to manage the emotions we feel when things suddenly happen that are out of our immediate control, how does that make us feel?

How to play:

- **Classic pick-up sticks game (works also with Kerplunk!).**
- **Drop a bunch of sticks and players take turns picking them up one by one without moving any other sticks.**
- **If you move any of the other sticks your turn ends and the one with the most sticks at the end wins. You can buy the game for not very much, or you can just use wooden skewers.**
